New build definition

We define new build as a property that has never been occupied.

LIBOR Trackers and the Reversion Rate

LIBOR Trackers and the reversion rate are variable rates that are linked to 3 month LIBOR and will change quarterly on 12 March, 12 June, 12 September, 12 December. Please note if this date falls on a non-working day then the LIBOR rate will be taken on the previous working day.

All of our LIBOR tracker products have a floor. This means that if LIBOR were to fall to 0.00% or less the rate payable will be 0.00% plus the agreed set percentage above LIBOR. This means that the rate payable will never go below 0.00% plus the additional percentage rate of the tracker mortgage.

Consumer Buy to Let

All products are available for consumer buy to let.

Affordability

Affordability

Interest Coverage Ratio (ICR) will be calculated between 125% - 160% based on the monthly rent as a percentage of the monthly interest payment on the gross loan (inclusive of fees) and will be dependent on the individual, except for a Limited Company.

Bespoke ICR

We can apply a bespoke ICR for joint applicants and joint ownerships. We can also apply it when the rental calculation moves the applicant into a higher tax band.

Fur further information on ICR and bespoke ICR, please refer to our buy to let criteria guide.

Re-financing assessment

For Fixed rates of 5 years and above the affordability assessment will be calculated at the pay rate. Additional underwriting checks will be required when LTV is greater than 60% and the minimum ICR has not met at an interest rate of 5.50%. Checks will include consideration of earned income, assets and liabilities, and net worth.
