For health assessments that support you at every step

For Living

Devote some time to the most important thing you have. Your health

Health assessments are available to everyone over the age of 18

Why have a health assessment?

Denne La La La

You might want to know that everything's working as it should be - our health assessments could give you peace of mind on a range of issues.

You might have a specific health concern – we can offer specialised tests, and many of our health assessments give you time to discuss your concerns with a doctor.

You might have a health problem that runs in your family - we can look at your lifestyle and risks to give you the tests that are relevant to you.

Get to know your health

In today's busy world, health assessments are a chance to stop and take stock of your health and wellbeing. They give you a picture of where your health is at currently, with guidance on how to move it in the right direction for the future.

Knowledge and support

We offer a range of health assessments for different needs and priorities. With our main health assessments you'll benefit from:

- clinical tests and measures appropriate to your individual needs
- a physical examination and dedicated time with a health professional
- advice on your health and lifestyle and how you might make positive changes for the future
- ongoing support to help you stay on track with your health goals

We may record or monitor our calls. Appointments are subject to availability. All types of Bupa Health Assessments may not be available at each Bupa Health Centre.

What results could you achieve?

We want to help you make real, lasting changes to your health and wellbeing. Here are just some of the changes our customers have reported so far.

80%

of customers changed their lifestyle habits either a little or a lot following their health assessment*

(based on a sample of 1,530 customers)

60%

felt better able to deal with stress*

(based on a sample of 316 customers who chose stress as their lifestyle focus)

55%

improved their sleep*

(based on a sample of 217 customers who chose sleep as their lifestyle focus)

gave up smoking*

(based on a sample of 153 customers who chose smoking as their lifestyle focus)

*Source: Internal data – 2016 health assessment outcomes. Customers questioned about their wellbeing while on their second lifestyle coaching call.

How health assessments work

Your health assessment is more than an appointment; it can be the start of a journey towards better health. That's why we'll be here for you before your health assessment, on the day and beyond.

Tell us about you

Health questionnaire – we'll ask you to complete a questionnaire before the day. This will help us build a picture of you, your lifestyle and your medical history.

Health and wellbeing app – you can use your Boost app to start tracking your health habits.

Understand your current health

Welcome – you'll meet your dedicated health adviser and talk through your questionnaire together.

Testing – you'll have the relevant tests* for your health assessment.

Time with a doctor – depending on the assessment chosen, a doctor could spend up to an hour dedicated to you.

Get our guidance

Results review – you'll receive any results that are available on the day.

Lifestyle consultation – together with your health adviser, you'll decide on the areas of your health that you want to improve.

Goal setting – based on the findings of your assessment, we'll help you to set realistic and achievable health goals.

Who are our health advisers?

Our health advisers are trained to support you in leading a healthier lifestyle. They are nurses or specialists in areas of health such as exercise physiology and nutrition.

Feel the benefit of our support

Online results and video coaching

- you'll be able to revisit your results anytime you like online with your My Bupa portal. Here, you can also access our health blog and video coaching.

Lifestyle coaching – as part of our ongoing support, you'll receive two follow-up telephone calls from our lifestyle coaches.

Boost app – you can use the app to set and track your health goals.

Anytime HealthLine – if you have any health questions in the year following your assessment, you can speak directly to a nurse any time of the day or night.

Assessments available to you

Main assessments

At the heart of each health assessment is the key set of tests and measures included in Health Core, which our other options build on to help address more specific health issues and concerns.

Specialised assessments

To help you address particular health concerns. These can be taken on their own or added on to any of our main health assessments. These may take place at a different centre to where you have your main health assessment. If this is the case we'll try to find the one most convenient for you.

Ongoing support

Using the results of your health assessment, you'll set some wellbeing goals with your health adviser on the day. And our support doesn't end there. We'll stay by your side in four ways to help you make the most of your future health and wellbeing.

To find out more:

O 0345 600 3476

Nww.bupa.co.uk/ha

bethany.allen@bupa.com

We may record or monitor our calls. Appointments are subject to availability. All types of Bupa Health Assessments may not be available at each Bupa Health Centre.

You'll be able to access your results online whenever you like through your personalised online space, My Bupa. While you're revisiting your results you can also check out our useful information videos and online coaching programmes, all free to our health assessment customers.

Health coaching

With most of our health

assessments you'll get two

follow-up phone calls with a trained lifestyle coach. They'll

find out how you're doing with

your wellbeing goals; giving you

encouragement, helpful tips and

more information if you need it.

Health and wellbeing app

Free to all our health assessment customers, the Boost app helps you set and track your health goals in four key areas:

- nutritionfitness
- relaxation
- mindfulness

Anytime HealthLine

You may have questions following your health assessment, so we have a supportive helpline you can call. The Anytime HealthLine gives you access to a team of nurses and GPs around the clock so you can get the right advice, right away.
