

## Valuations

To protect our employees, our customers and the people who may be living in these properties, we are replacing physical valuations with remote valuations for single self-contained properties and properties with four or fewer tenants. For more complex and HMO applications, we will continue to manage the application but will book the physical valuation towards the end of the process.

## Affordability assessment

### Standard SSC and HMO/MUB properties

The gross rental income from the property should equal or exceed the ICR as determined using a combination of the tax band applicable to an applicant's income and the property type. The tax band applicable to the applicant with the highest income will be used. This will be calculated using the amount requested, at either the product charging rate plus 2% or 5.5%, whichever is the greater. The exception to this rule will be 5 year fixed rate products, which will be calculated using the amount requested, at either the product charging rate or 4.00%, whichever is the greater. The applicable ICR rate will be shown against each product. For limited liability partnerships, the tax band appropriate to the applicant (member) with the highest income will be used.

### Expatriate applications

The gross rental income from the property should equal or exceed the ICR based on the ICR percentages below. The calculation will be based on the amount requested at either the current reference rate of 5.5%, or the product charging rate plus 2%, whichever is the greater.

Applicant type	Single self-contained properties	HMO's, multi-unit and all other property types
Basic rate tax payer (20%)	125%	130%
Limited company	125%	130%
Higher rate tax payer (40%)	140%	145%
Additional rate tax payer (45%)	140%	145%
Expatriates and LLPs with expatriate members	140%	N/A
Limited companies with expatriate directors	130%	N/A

### Future affordability

To cater for the PRA affordability regulation, we will require a fully completed property schedule on all applications before we can carry out our underwriting assessment. Depending on the profile of the case, we may also ask for a business plan and cash flow forecast (PDF versions of these documents can be found on our website). We will also need to ask for more information about your customer's income to enable us to apply the appropriate tax band and ICR to the affordability assessment. This product guide sets out how all future applications will be assessed, and at what rate and ICR.

## Advance

Up to 75% LTV	Up to 70% LTV	Up to 65% LTV	Min loan	Max aggregate loan	Min income	Min age	Min term	Max term

A maximum aggregate borrowing above £5,000,000 may be considered on a bespoke basis, subject to a maximum aggregate LTV of 70%.

## Consumer buy-to-let

We will not consider portfolio applications that qualify as consumer buy-to-let mortgage contracts.

## Paragon customer placement

Applications for limited companies, limited liability partnerships, HMOs and multi-unit blocks must be submitted through the Paragon portfolio application process, even if the customer is classified as non-portfolio under PRA regulation.

The mortgage valuation report is a Security Assessment carried out for the benefit of Paragon Banking Group to determine if a property provides acceptable security for mortgage purposes. A valuation fee may be charged at application stage, where applicable, in accordance with the fee scales shown above. Where an internal inspection has been carried out and the proposed security is subsequently declined, a valuation report will not be made available although a summary will be given advising why the property is deemed to be unsuitable. In these circumstances the valuation fee, if paid, is non-refundable.

**In conjunction with other criteria, we will assess the affordability of a mortgage based on the expected monthly income generated from letting the property to a tenant. The actual income generated may be different and can be influenced over time by changes within the rental market. The applicant(s) will remain responsible for meeting the costs of the mortgage and the additional costs associated with letting property for the duration of ownership. Please refer to Paragon's Portfolio lending guidelines and submission requirements for full criteria.**
