

Virtual health and wellbeing support with WeCare

Customers across our home finance products now have access to WeCare, a range of health and wellbeing services available from the comfort of their homes – all provided confidentially and for no cost.

What's available?

Consultations with UK-based GPs for virtual medical advice 24/7

Second opinions from consultants on diagnosis or treatment needs

Healthy living support including meal planning and get fit programmes

Private prescriptions can be arranged and delivered at home

Professional mental health support including life events counselling and bereavement sessions

Expert legal and financial guidance on divorce property disputes, probate, budgeting and more

Who can access WeCare?

WeCare is available to home finance customers and their immediate family. This includes partners, legal dependants and family members living in the same household.

Is there a cost to using WeCare?

All WeCare services are completely free to use, but if customers request a prescription from the GP then costs may apply.

Alice Watson, Head of Marketing, Insurance, Canada Life

“WeCare can help in numerous ways – from healthcare support to life events counselling, and even improving daily wellbeing through options such as support to stop smoking or guidance on healthy eating and fitness. We expect our customers and their families will find a lot of value from using the services, which offer support from qualified experts around the clock.”
