

## **PAYMENTSHIELDS NEW QUOTE JOURNEY HAS BEEN REIMAGINED**

Paymentshield have launched their new quote journey making it easier to offer a fully protected home to your client. Using property data from a global data provider, their question set has been significantly reduced by removing anything that no longer impacts the price, which saves you time when processing the quote meaning you can spend more time giving advice to your client instead of filling in boxes.

### **What's new?**

- Removal of questions with minimal impact on price and quotability
- Fewer pieces of information needed to get a price for your clients
- Removal of questions that are hard for clients to answer

Paymentshield's latest video goes into more detail about the exciting changes and can be viewed [here](#)

Paymentshield will also be hosting a series of webinars which showcase the new system and answer you questions
