

Cirencester Friendly increase their automatic medical underwriting limits

Following adviser feedback and our commitment to improving our proposition, we're delighted to announce that from 19 October 2023, we have increased our automatic Underwriting Limits.

What does this mean for your clients?

This increase has changed the automatic medical evidence¹ we need from clients.

In comparison to our previous limits, we've increased these by 99% for those aged 40 – 50 and a 75% increase for those aged 51 and above.

These increases will help to speed up applications and allow more to go straight through processing. Once questions are completed correctly and in full, you and your client will be able to get a decision at point of sale².

¹ The only evidence we request for automatic medical evidence is a medical screening
