

Key updates from Bupa

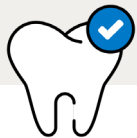

Our cover now covers more

With all new consumer policies and renewals starting from 1 August 2024, your clients

will have access to one appointment with Bupa Dental Care, every policy year. Plus, if they need follow-up care, we'll give them a £300 allowance towards restorative treatment.

- ✓ One dental appointment per person per policy year.
- ✓ This can be used at a Bupa Dental Care practice for a routine check-up, new patient examination, or emergency appointment.
- ✓ If the dentist recommends further care, we'll provide a £300 allowance towards restorative treatment. This covers things like crowns or fillings.

Quick face to face GP access

As part of existing Bupa By you Comprehensive cover with full out-patient cover, we're now providing quick, face to face appointments with a Bupa GP, for just £20.

Each appointment should only last 15 minutes, and clients can select the most convenient location to them with finder.bupa.co.uk and clicking on 'Bupa health centres' in the first box.

Children go free

If a parent takes out a BBY or a Switch policy, along with their children, they will only pay for their eldest child (up to 20 years) and we'll cover all their other younger children for free – no matter how many there are. T&C's apply.
