

Welcome to AXA XL NewsBound, our UK & Lloyd's market newsletter filled with industry insights from our leading experts. This newsletter is shared with our UK based brokers on a quarterly basis.

[AXA Future Risks Report 2024](#)

The focus of this year's Future Risks Report 2024 is on the growing complexity of managing interconnected global risks, driven by technological advances, geopolitics, and misinformation, and insurers' role in mitigating them.

[2023 Climate report](#)

AXA Group launched its "AXA for Progress Index" in 2021. This is a set of climate and sustainability-related commitments translated into targets and shared across the Group to further embed sustainable development in our activities: as an investor, as an insurer and as an exemplary company. These AXA-wide commitments are detailed throughout this report.

[Cyber risk; facing the future with confidence](#)

Cyber is one of the top risk priorities for risk managers in the UK. Following the annual AIRMIC risk management conference in Edinburgh, Scotland, Vanessa Leemans, Head of Cyber, UK & Lloyd's at AXA XL, discusses how a holistic approach can help equip organisations to build their cyber resilience.
