

Simplified Property Owners Insurance Including Limited Company Portfolios

A Simple Transition

If your clients currently insure each property under separate policies, we can consolidate them into a single portfolio policy. We'll provide quotes for all properties upfront, allowing you to compare costs and migrate them seamlessly as renewals arise.

Why Choose Portfolio Insurance?

- Comprehensive Coverage: Suitable for residential, commercial, and semi-commercial properties, including vacant properties pending sale, rental, or refurbishment.

- Streamlined Management: One policy, one premium, one renewal date, and one claims contact for all properties.
- Flexibility: Easily add or remove properties as they're bought or sold.

Solutions for Every Portfolio

Whether your clients own a modest collection of properties or a large, diverse portfolio—including blocks of flats, or multi-commercial units,—we have the expertise to find the perfect solution.

Policies can be in a limited company name if required.
