

Our dental allowance just got even better.

Want to give your consumer clients a little something extra to smile about?

From **17 February 2025**, our dental allowance will be available to **all of your clients, regardless of their renewal date.**

That means new and existing clients will get an appointment at a Bupa Dental Care practice and a £300 allowance towards restorative treatment. **Every year, for everyone on the policy.**

Dental allowance at a glance

What's included?

One appointment with Bupa Dental Care every policy year. This can be used for a routine check-up, new patient examination, or emergency appointment. If further care is advised, we'll give your client a £300 allowance towards restorative treatment, like crowns or fillings.

Who's it for?

Anyone who starts a new consumer health insurance policy, as well as all existing clients from 17 February 2025. That means it's for them and everyone covered by their policy.

How does it work?

We'll add the dental allowance automatically at renewal or when your client buys a new policy. They won't need to pay any excess, and it won't affect their no claims discount or low claims bonus if they have one.
