

A new year brings new challenges, but calculating your commission doesn't have to be one of them. At LV= GI, we understand the fuff of working out commission per sale, especially with Insurance Premium Tax (IPT) factored in. That's why we've created our NEW Commission Calculator to do the hard work for you

Make a calculation

A helpful new tool from LV=

Simply tap in your sale figure, followed by your commission percentage, and the calculator will remove the IPT, work out your commission percentage, and show you your potential earning, leaving you to focus on what matters most - your clients.

'A really helpful tool for quickly understanding your potential earnings. Why not start 2025 focusing less on maths and more on time with your clients?'
