

Early Prevention, Lifelong Benefits

Melanoma skin cancer rates have increased by almost a third over the past decade*, but here is the good news: most cases are preventable. That is why taking simple, proactive steps can make all the difference. With the [SkinVision](#) app, available with Health Shield cash plans, members are empowered to spot potential issues and act quickly.

SkinVision uses advanced AI to assess skin spots for signs of skin cancer and provide immediate care advice. It's a simple, proactive way to help your clients support their teams' health and wellbeing.

To make it even easier to spread the word, we've created a suite of resources for you to share with your clients during Skin Cancer Awareness Month.

- **Download the [Tipsheet](#)** – Practical advice for protecting skin health.
- **Explore the [Blog](#)** – Real-life stories that highlight why early action saves lives.
- **Access the [Awareness Poster](#)** – Educate your clients' teams with key prevention tips.
