

STRENGTHEN YOUR HEARING WITH EARGYM

Monitor and improve your hearing health through fun, interactive games

Boost your brain's ability to make sense of sound in noisy spaces

Eargym is a groundbreaking ear-training app designed to help you improve your hearing ability, anytime, anywhere.

Did you know, one in six adults of working age suffer from some level of hearing loss? With this innovative tool, you can work to increase your understanding of speech in noisy environments by as much as 25%.

Through immersive games, you can test your hearing age, improve your listening skills and compare your results to the rest of your demographic.
