the later life lender

## **Omni: now unlocking even more choice for clients**

At more2life, we offer the widest range of lifetime mortgages in the market. We're committed to creating products that help advisers deliver better outcomes. That's why we're excited to share an important update to Omni, our lifetime mortgage designed to help your clients make more of later life.

Omni offers our broadest lending criteria **and now provides even higher LTVs – up to 56.7% –** opening the door to more choice for clients. This enhancement gives you the tools to use tailored, innovative solutions that help clients take control of their housing wealth and achieve their later life goals with greater confidence.

By increasing LTVs, we're reaffirming our commitment to innovation. Omni continues to be an adviser-centric solution built to support conversations that matter most.
