

# more2life

## the later life lender

more2life is proud to have the widest range of lifetime mortgages available in the market.

**And it's getting even bigger.**

Recently, they announced that **Horizon** and **Horizon Interest Reward** are now a part of their product range.

more2life isn't stopping there either, as the **Early Repayment Charge (ERC) period** on their Flexi plan has been **reduced to 10 years**, giving advisers and their clients greater control and certainty. And that's not all, more2life has launched their **Age Next Birthday** feature across their full product range which is now available through Air Sourcing and Advise Wise.

more2life continues to support advisers to make more of the later life lending market with smart technology, adviser-focused support and the widest range of lifetime mortgages. Horizon is a natural fit with this focus.

**Why Horizon stands out:**

- Up to 0.55% interest rate discounts with Horizon Interest Reward
- Downsizing protection from day one
- 8-year fixed ERCs, plus an ERC exemption period that never expires

All backed by more2life's adviser-first service and processes.
