

## We're updating our SME Dental Insurance

We're always upgrading our products to make sure they suit your customer's needs and the changing healthcare landscape.

That's why we've made some changes to our small business dental cover.

### What's changing?

From **1 January 2027**, we'll no longer offer Dental Choice to new small business customers. Instead, we'll only offer Dental Plan.

That means you **won't be able to generate new small business quotes for Dental Choice.**

**Clients already on Dental Choice** will be able to renew their cover without any disruption. The change only affects new business quotes.

### What is Dental Plan?

Dental Plan has **five levels of cover** so customers can choose what's right for their people and their business. It gives employees cash back on their dental treatments at any dental practice they like – NHS or private.

[Read the leaflet](#)

## Key Features

- Use it at any dental practice – NHS or private
- Cover for oral cancer, injury, emergency and specialist treatment
- Claim as often as they need, with no cap on visits for routine check-ups and scale and polishes
- Make claims and check benefit allowances all in the My Bupa app
- Worldwide cover for essential treatment†
- Expert advice with our Oral Healthline

## More benefits at Bupa Dental Care practices

Members can use their cover at any practice they like. But when they visit a Bupa Dental Care practice, they'll unlock all this:

- **fully covered preventive treatments**, including new patient exams, routine check-ups and scale and polishes
- **easy claiming with Instant Claim<sup>^</sup>** – we'll pay the practice directly so members have no receipts to remember or forms to fill out
- **up to 20% off\* treatment costs**
